Similasan Computer Eye

Eye drops 10 ml

What is Similasan Computer Eye?

Similasan Computer Eye is designed to moisturise the eyes in order to alleviate eye discomfort.

When to use Similasan Computer Eye?

- Similasan Computer Eye is a sterile eye drop which gently moisturises and so *quickly* relieves, soothes, cools, calms and lubricates 'screen eye'. Thanks to the unique composition of Similasan Computer Eye, which has a balanced pH, Similasan Computer Eye quickly moisturises and gently calms affected eyes when they feel tired, strained, aching and dry due to intense computer/office work, watching TV, gaming, reading, writing or driving at night.
- Similasan Computer Eye can be used daily to alleviate symptoms of overworked eyes related to reduced blinking or prolonged focus of the eyes (e.g. "office eye syndrome").

How do you use Similasan Computer Eye?

Dosage:

Apply 1 - 2 drops in each eye, one or several times per day.

The length of the moistening effect and therefore soothing, cooling, calming and lubrication after one application varies for each individual. Reapply as needed.

Directions:

- Remove tamper-evident seal from neck of bottle.
- Twist cap off bottle.
- Squeeze plastic tip to release 1 - 2 drops into eye.
- Apply as needed.
- Replace cap after use.

Instructions for safe use:

It is important to follow these instructions.

Do not touch the eye with the container.

In order to avoid microbial contamination (bacteria) to not touch the opening of the dropper, and ensure the bottle is closed immediately after use.

Warnings and precautions:

- Use only if the bottle seal is intact.
- Do not use Similasan Computer Eye in cases of known hypersensitivities or allergies to any of the ingredients.
- If you experience hypersensitivity while using Similasan Computer Eye, stop using Similasan Computer Eye.
- If symptoms persist or become worse, please consult your pharmacist or doctor.
- Do not use in children under 2 years of age.
- During pregnancy and while breast-feeding and as a precautionary measure, do not use this product without prior consultation with your doctor or pharmacist.
- In cases of inflammation of the eye, the wearing of contact lenses is not advised.

Side effects:

- With Similasan Computer Eye, no side effects have been observed to date. If you experience any side effects while using this product, stop using it and consult your doctor or pharmacist.
- With Similasan Computer Eye, no drug interactions have been observed to date. As a precautionary measure before using this product consult your doctor or pharmacist if you suffer from any other diseases, illnesses, allergies or if you are taking other medication (even those bought by yourself).

How to store Similasan Computer Eye:

- Store at room temperature (below 25 °C).
- **Keep out of sight and reach of children.**
- Discard 30 days after first use. Do not use after expiration date on the packaging «EXP». 

What ingredients are in Similasan Computer Eye?
