Similasan Pink Eye

Eye drops 10 ml

What is Similasan Pink Eye?

Similasan Pink Eye is designed to moisturise the eyes in order to alleviate eye discomfort.

When to use Similasan Pink Eye?

- Similasan Pink Eye is a sterile eye drop which gently moisturises and so *quickly* relieves, soothes, cools, calms and lubricates pink/red eyes. Thanks to the unique composition of Similasan Pink Eye, which has a balanced pH, Similasan Pink Eye quickly soothes, cools and gently calms red or teary eyes when they feel irritated or gritty due to common cold, cough, flu or external irritants (e.g. foreign bodies, contact lenses, rubbing of the eyes, smoke, dust).
- Similasan Pink Eye can be used regularly to cool and calm pink/red eyes suffering from the symptoms of common cold (viral) or environmental conjunctivitis.

How do you use Similasan Pink Eye?

Dosage:

Apply 1 - 2 drops in each eye, one or several times per day.

The length of the moistening effect and therefore soothing, cooling, calming and lubrication after one application varies for each individual. Reapply as needed.

Directions:

- Remove tamper-evident seal from neck of bottle.
- Twist cap off bottle.
- Squeeze plastic tip to release 1 - 2 drops into eye.
- Apply as needed.
- Replace cap after use

Instructions for safe use:

It is important to follow these instructions.

Do not touch the eye with the container.

In order to avoid microbial contamination (bacteria) to not touch the opening of the dropper, and ensure the bottle is closed immediately after use.

Warnings and precautions:

- Use only if the bottle seal is intact.
- Do not use Similasan Pink Eye in cases of known hypersensitivities or allergies to any of the ingredients.
- If you experience hypersensitivity while using Similasan Pink Eye, stop using Similasan Pink Eye.
- If symptoms persist or become worse, please consult your pharmacist or doctor.
- Do not use in children under 2 years of age.
- During pregnancy and while breast-feeding and as a precautionary measure, do not use this product without prior consultation with your doctor or pharmacist.
- In cases of inflammation of the eye, the wearing of contact lenses is not advised.

Side effects:

- With Similasan Pink Eye, no side effects have been observed to date. If you experience any side effects while using this product, stop using it and consult your doctor or pharmacist.
- With Similasan Pink Eye, no drug interactions have been observed to date.
As a precautionary measure before using this product consult your doctor or pharmacist if you suffer from any other diseases, illnesses, allergies or if you are taking other medication (even those bought by yourself).

How to store Similasan Pink Eye:

- Store at room temperature (below 25 °C).
- **Keep out of sight and reach of children.**
- Discard 30 days after first use. Do not use after expiration date on the packaging «EXP».
